## High and Junior High to Reopen

**Resume Sessions Wednesday—Grammar and Parochial Schools Open Sept. 13**

Punchard high and the Junior high will reopen on Wednesday morning at 8.15, with the grammar schools reopening on Monday morning, September 13. The St. Augustine parochial school will also reopen on September 13.

There is only one new teacher for the high and junior high this year. He is Emil Keiler, formerly of Amherst, who will teach manual arts.

Emil Keiler

The school board will meet next Tuesday evening in the first session of the school year.

Much work has been done in the schools this summer, and the buildings are now in the best condition that they have been in over a decade. An intensive drive was begun four years ago to bring the buildings into good condition so that they would not make drastic repairs necessary in the future, and Superintendent Sanborn was able to report during the spring that in his visits to other towns he could find no schools in as good physical condition as the local ones.

The installation of the new Bradlee heating system was the main job done this summer. The Bradlee basement, particularly the toilet facilities and the floor, will require rebuilding later. The

## Inspect Bradlee Heating System

The new oil heating plant at the Bradlee school was inspected on Wednesday night by the school committee. Installed at a cost of around \$3600 on a bid secured early in the year by the school board, the plant would have cost about \$4600 if installed on a summer bid, the contractor stated.

The old troublesome coal heating plant has been replaced by a new up-to-date oil heater, and the old pipes have been replaced, with more radiation supplied throughout where necessary. Two clock thermostats have been installed and are so set that at seven in the morning the room temperature mounts to 72 and at four in the afternoon drops to 65. At four on Friday afternoons it drops to 65 and remains there automatically until Monday morning at seven. It requires practically no attention.

The Bradlee, North and West schools now are all oil-heated. The Indian Ridge is the only outlying school now operated on coal, while the new Central plant is also coal-using.

### Four Candidates for Police Jobs

Only four candidates remain in the race for the two police appointments which will be made shortly. Seven passed the mental examination, six of these the medical and four the mental, medical and physical.

The four, in order, are: David L. Nicoll of 11 Bartlet street; George F. Dufon of 25 Dufon road; Joseph A. Davis of 37 High street; and William J. Stewart of 23 Breechin terrace.

The above order was given out to the newspapers in Boston, but the selectmen were only sent the cards of the four candidates, with no order given.

### Traffic Being Detoured Over West Andover Roads—Will Take Eight Weeks

A gas shovel, four trucks and nine men are working on River road at present in excavating and drainage. Most of the work at this stage is merely taking fill from one part of the road to another. Next week they will start hauling in gravel.

Meanwhile traffic is being detoured

Charles Gilliard

from a point in Tewksbury at Fiske street, along Bailey road to Pleasant street to Boutwell road back to the River road.

The road will be Warren penolithic, similar to what has been put in the other recently built sections of the street. The job will be finished in seven or eight weeks, with about eight more men to be put on when the stone is being laid.

Elm street has a good foundation, Superintendent Gilliard states, and so it will not be necessary to dig up the whole street. The cartracks will be ripped out.

## Briggs-Allen to Open Sept. 14

The Briggs-Allen School opens its 30th season Tuesday, September 14, at 8.45 a.m. A special class—Transition Group—so called because it meets the needs of the pre-school age child—is conducted by Miss Martha Howe who has taken special courses for such work. The Grades from the First through to the Eighth are taught by teachers of experience and training. Two former Briggs-Allen pupils have led in scholarship at Abbot Academy for the last two years.

The Briggs-Allen School is progressive in the fact it is open to all new ideas of teaching but conservative in that it recognizes a child must know certain fundamental facts and be trained in char-

acter habits to face life happily and confidently.

Mrs. Lucy Allen Eaton, daughter of the founder, Mrs. Amy E. Briggs, is Principal and she with a staff of competent teachers carries on the Briggs-Allen School.

## Shawsheen School Teacher Tells of Continent Trip

The following is a brief outline of the European trip which Mrs. Douglas Donald of the Shawsheen school faculty has just completed. She visited five countries.

We left New York on the 28th of July on the United States liner S.S. Washington. The Queen Mary left her dock at twelve too, so there was great excitement with the two liners leaving together. About 3.30 the Queen Mary passed us and was soon a speck on the horizon. Our days on ship board were very happy ones—pleasant skies, calm waters and very congenial and interesting shipmates, coming from all over the world.

One of my cabin mates was a German lady who asked me to help her with her English. I gladly did so as she helped me with my German, which I needed while traveling through Germany. Our first sight of land was Ireland. We landed outside of Cobh at about 2:30 in the morning and watched the new moon and one bright star set. The dawn came and we saw the beautiful coast of the Emerald Isle. Out next stop was Plymouth and a view of the English coast line and finally on to Le Havre where we landed, went through the customs and took the boat train to Paris.

### Exposition Remarkable

Paris was very, very hot, a bit dirty and so noisy. I'm afraid we did not see it at its best. The spring and fall are the best seasons to visit Paris. The beautiful buildings and the historic interest of course are very valuable, and the beautiful old paintings done by the old masters of art beyond my words of description.

The Exposition, gigantic, covers some five miles, centering around the Eiffel Tower and the Trocadero Gardens.

The architectural and engineering feats are amazing. The two outstanding buildings are the German and Russian. We viewed the Exposition both from land and from a trip up the Seine.

Our last night in Paris we went to the Roi George, a gorgeous restaurant, on the Seine, built like the deck of a ship. There we ate out-of-doors, and sat viewing the wonderful panorama of the Exposition, the Eiffel tower all lighted in green, the bridges over the Seine and the boats plying up and down its waters. Suddenly directly opposite us the most beautiful fountains started playing—hundreds of them, changing colors and shapes constantly. We sat entranced, wondering if it could all be true and not some Fairyland that we had slipped away to for the moment.

The next day after a long hot dirty ride from Paris we finally reached the Swiss border line, from there electric engines and much cooler air.

The scenery grew prettier and lovelier, mountains, country scenes and little Swiss chalets nestling among the hills. We were so thrilled to think our long journey nearly over. Just about six o'clock we drew into Bern, the capital of Switzerland.

Our hotel, the Bellevue Palace, delightful and cool, on the side of a mountain—to the right in a white misty glow the Alps, little hamlets nestled here and there, and below the lively river Aare, as green as if some one had colored it and so cool to look on. Little terraces outside each room, where one may sit and drink in all the beauty around him. The next day we took a drive around the city, and then took the train for Interlaken, a beautiful journey all along Lake Thun. Interlaken is quite a summer resort situated at the foot of the Jungfrau and a most delightful spot. Went in bathing in a marvelous swimming pool, fed from mountain streams and all around us the mountains, many snow capped.

### Into the Mountains

The next day a most comfortable Rolls Royce and a husky Swiss driver awaited us. We drove around the town first and then off on the most wonderful trip I've ever experienced. First over the Gremel pass—up-up we drove, beyond the timber line through mountains of greater and more outstanding beauty. It was awe-

some and breath taking. The hair pin curves were just on the edge of the world and the roads we had traveled like ribbons stretched out below us. At noon time we sighted the Rhine Glacier, 8000 feet above the world, such a beautiful blue, as if it had borrowed the heaven's own color for its own. It was very cold around the glacier, all the slopes near by were covered with brilliant Alpine flowers.

We lunched at the Glacier Inn and in the afternoon went on through the Furka Pass which is not so wild or grim. Our course was now downward and our ears bothered us somewhat.

We passed the mountainous regions, the underground Swiss Railway, the Fortifications in the sides of the great cliffs and finally stopped at a little Swiss village for tea—then on for miles along Lake Lucerne to Lucerne, one of the loveliest of Swiss towns. Pilatus and Rige towering above the lake, and the famous lion of Lucerne in the Glacier Garden. We were loath to leave Switzerland with all its beauties, but each country has its attractions.

We went on to Heidelberg, the old castle, the interesting University and the Inn where the "Student Prince" lived and loved.

In the evening we arrived at Wiesbaden a very beautiful city, wrestled with the German beds and different kinds of baths, and the next day started on our trip up the Rhine. It rained very hard, our first rainy day, but we were able to see the old castles, the miles and miles of vineyards, the "Mouse Tower" and the most beautiful stretch of all, the Rhine Valley from Mainz to Coblenz including the mythical and legendary cliff jutting into the Rhine, whence came the story of "Die Lorelei." We landed at Coblenz, took the train to Koln or Cologne as we spell it, visited the most beautiful Cathedral at twilight, were entertained royally by some German friends, and rode around this wonderful city to a Coffee House on the Rhine for after-dinner coffee.

The next morning we left for Amsterdam and were soon viewing the broad flat lands of Holland with its canals and windmills. We enjoyed the Dutch country, our visits to Volendam and the Isle of Marken, saw how the Edam cheese was made and visited some typically Dutch country homes.

The greatest thrill of our trip was our air trip from Holland to England.

### To England by Air

When we arrived at the Royal Dutch Lines Office we asked our guide if he was going on to the Airport with us. He said,

## Down on the Farm

This little boy and this little girl are no longer little, and the girl wasn't a girl. She—he—was a boy, and is a man. They are Robert Henderson and Charles Milligan.

"No, I now leave you in the hands of God." It was very foggy and rainy in Amsterdam and he probably thought us very foolish to try to fly over the North Sea. We went on to the air port. Saw a plane take off for Paris and then boarded our plane, a beautiful Silver Douglas plane, made in our own country.

The trip was very smooth and comfortable and as we neared the English coast the sun came out and it was a truly beautiful sight to view it all from 3000 feet in the air, my first glimpse of London, the Thames and the famous London Bridge. We glided easily and gracefully down to Croyden field. Through the customs again and then on to our hotel in

the City of London, the Park Lane on Piccadilly.

I loved dear old London and went sight-seeing many days. Will not go into detail as many of my friends have visited the places of historical interest there. Fish Ordinary in old Cheapside, and the "Cheshire Cheese" were most interesting luncheon places.

As my friends the Ingrams, who so graciously let me join their trip, said, "We've had a peek here and a look there, but we've seen a great deal which we will never forget."

My wanderlust is over, a feeling of contentment and satisfaction comes over me and home is the best place on earth.

## Staying Away from Polls at Special Primary and Election Inexcusable

"It's hard to tell just what will happen at the coming Congressional election in this district, because so few people turn out for a special election." That's a statement you hear often nowadays in political circles as the time approaches for the special election to fill the late Congressman William P. Connery's place as representative of this district.

This election is just as important to Andover as if it were a gubernatorial or a presidential election; there is no reason why every voter should not turn out to record the name of the man he would like to have representing him at Washington. Congress is occupying today a very important position in the business life of the country, for in the past session it has acted as a brake on the President's hastily-conceived plans. The balance in favor of common sense however has at times been not too strong, and so it is very important that this Congressional district elect someone who has a capacity for using his own common sense rather than following willy-nilly the wishes of the President.

There are eight candidates, including four Democrats, three Republicans, and one Social Justice. The weeding-out process takes place at the primaries on September 14. Political forecast has it that the primaries will be very poorly attended, but it is here that the fight for common sense may be won or lost. If voters stay at home, the chances are that someone may be chosen as a party representative who is entirely incapable of filling the position satisfactorily.

Go to the polls on primary day. If you're a Republican, ask yourself if the man you're going to vote for

will follow the new Republican policy of progress without loss of liberty; if you're a Democrat, ask yourself if your choice is one who will use his own mind or if he is one who will say "Yes" to all the President's commands. If voters will do that on primary day, September 14, when the election comes on September 28, the ballot will be one more worthy of Essex county.

## Dim the Lights

Aside from a little work at infrequent intervals on the clutch pedal, a person's left foot is called on very little during the course of a drive. At night it can perform a very useful function, but too many drivers seem to think that the little button placed in most cars at the side of the clutch pedal is just an added piece of equipment that doesn't have to be used.

It is more than a courtesy to use this button to dim your lights when another car approaches from the opposite direction; it is in many cases a real necessity. Registrar Goodwin once told the local Service club that bright lights on a car are not a "menace, just a nuisance," but everybody who uses his common sense knows that many accidents are caused by the glare from another car's headlights, a glare that makes the approaching driver blind for all practical purposes. Thus blinded, he might hit a pedestrian, a post, another car—and Registrar Goodwin would probably take his license away for reckless driving, when as a matter of fact if the other driver had just pushed that little button under his left foot personal and property damage would have been avoided.

### Urges Sesquicentennial Observance

Is Andover going to let the historic event of the Constitution's birthday pass unobserved? Surely this is an occasion for us to take an active part. What greater opportunity is there for us as citizens of this Patriotic Town, to show our adherence to the law of the land. Perhaps the school children will do something to commemorate the 17th of September, 1937, the 150th birthday of the Constitution of the United States of America.

### ON ELIGIBLE LIST

Miss Jean M. Crayke is one of three persons from this district declared eligible by the Civil Service commission for the position of statistical investigator in the state department of labor and industries.

### S. AND C. MEETS

The Square and Compass club held its first meeting of the coming season at the club hall last night. Routine business was transacted.

## Plans First Sermon

Rev. Herman C. Johnson

Rev. Herman C. Johnson, new pastor of the Free church, will preach his first sermon as pastor on Sunday, September 12. There will be a communion service.

The choir will sing at this service. Rehearsals will be held next Thursday at the usual time.

The Standing Committee of the church will hold a meeting on Wednesday at 7.30.

## Believed Safe in Hongkong Gale

Mrs. J. Oram Sheppard of the Caronell apartments, whose husband is located in Shanghai, stated this morning that while she had heard nothing official from Hongkong, she felt Mr. Sheppard was in no danger from the disastrous typhoon which struck Hongkong Thursday.

Most of the damage evidently took place in the Chinese quarters when the 130 miles per hour gale struck the flimsy dwellings and the small boats which are home to some of the Chinese. Raging fire later wreaked further havoc at West Point, where storage houses, Chinese homes, restaurants, etc., are located. There is also a severe cholera epidemic.

Mrs. Sheppard feels that her husband's offices on the waterfront were probably flooded. "The Empress of Canada" one of the boats of which Mr. Sheppard is in charge was in port, and is evidently undamaged. It is due to sail today.

When a typhoon is expected, signals are hoisted, and everybody in the strongly-built European homes battens down with enormous shutters. The Chinese quarter however is easy prey to a typhoon because of the flimsiness of the construction.

## TPA Nominating Group Named

A nominating committee for the Andover Taxpayers' association was appointed this week by President Edmond E. Hammond. They will submit their report at the annual meeting of the association on October 11. Mitchell Johnson, Walter M. Lamont and Attorney Joseph L. Burns comprise the committee.

The secretary, treasurer and seven directors are to be elected, the directors for three year terms. The terms of the following expire this year: Edward P. Hall, Frank H. Hardy, Harvey G. Turner, Michael Lane, E. Barton Chapin, Eldon E. Stark and Henry S. Hopper.

Both Mr. Lamont and Mr. Johnson served on the nominating committee last year.

A meeting of the directors of the association will be held on Friday evening, September 17.

## Bride on Parents' 20th Anniversary

The marriage of Miss Marguerita Marie Crawford, daughter of Judge and Mrs. John W. Crawford of Tilton, N. H., and granddaughter of Mr. and Mrs. John Sweeney of 34 Chestnut street to Charles Burton Arthur of Walpole, a former instructor at Tilton school, took place Saturday evening at six o'clock at Andover, the former home of the Crawford family. The ceremony was performed by Rev. Thomas B. Austin, O.S.A., at the rectory of St. Augustine's church. Twenty years ago Saturday the bride's parents were married at St. Augustine's church.

Saturday's ceremony was witnessed by families of the couple and a few friends. The bride was attended by Miss Nancy E. Cole of Lynn, as maid of honor. The best man was Walter C. Allen of Walpole, who was a classmate of the bridegroom at Dartmouth college.

The bride wore amber satin with a yoke of Chantilly lace, with a small bunch of forget-me-nots in the center of

the yoke. She carried a gold and crystal rosary. She also wore a pair of antique gold bracelets, a gift from her grandmother, who was married 60 years ago.

The maid of honor wore hyacinth moire trimmed with bows of the same material. Accessories were of pink and she wore gardenias in her hair and carried a gardenia.

A reception was held after the ceremony at the Andover Country club with about 40 guests present. Music was furnished by an orchestra from Lawrence. After a bridal tour, Mr. and Mrs. Arthur will be at home September 15 at Hebron academy, Hebron, Me.

The bride is one of Tilton's popular young women, a graduate of Tilton school in 1935. She attended the University of New Hampshire in 1936 and 1937. The bridegroom is a son of Mr. and Mrs. David S. Arthur of Walpole. He is a graduate of Hebron academy in 1930 and of Dartmouth college in 1934. He taught at Tilton school, and for two years has been an instructor at Hebron in history, has coached ice hockey and been an assistant football coach.

Our best thoughts come to us from thinking of others.—Emerson.

Chicago hair-dressers complain that "ordinary barbers in the Midwest are calling themselves hairdressers, to the great detriment of the advanced profession."

Reminds us of the late Judge Joseph Quinn of Massachusetts. In his court one day the district attorney, questioning a witness, asked:

"You are a barber, aren't you?"

The witness replied, pompously, "I am a tonsorial artist."

"Well, now," put in Judge Quinn, "isn't that splitting hairs?"

Guide: There, my dear madam, is a skyscraper.

Old Lady: Oh, my! I'd love to see it work.

## Plan Thrill Acts for Topsfield Fair

The Essex County fair at Topsfield probably has presented more big-time "thrill" acts than any exposition of its size in New England and judging from the program for this year's five-day show, September 15 through 19, it intends to preserve its reputation.

Patrons of this 116-year-old fair were the first in New England to see Carver's famous diving horses, Lucky Teter and his "Hell Drivers," the sensational "Four Queens of the Air", Daredevil Townsend and his wall-crashing stunts, and other outstanding spectacles too numerous to recount.

Officials of the Essex Agricultural Association have outdone themselves in booking spectacular entertainment this year. When they could not find the feature act they wanted in the United States, they went to Canada and got Charley Lajoie, internationally known stuntman, who had just perfected his most sensational feat—"Dive of Death"—a 60-foot plunge on a motorcycle into an eight-foot tank of water. Roaring off a narrow wooden tower, placed 23 feet from the tiny tank, he will leap the gap before starting a steep "power dive" that will hurtle him into the water at terrific speed. When a

similar act was tried at the fair two years ago and failed, it was the consensus of opinion that "it couldn't be done." The Canadian daredevil set out to master the stunt after reading of Bud Hamilton's failure and has assured fair officials that not only will he perform it every day of the fair, but every night as well.

Another new thrill will be offered fair spectators Saturday night when Art Churchill will leap 25 feet from a burning building into a life net. N. E. champion ship motorcycle racing, chariot racing, harness and Roman standing races, push-ball contests on horseback, vaudeville, fireworks, amateur contests, wrestling, tug-of-war competition and scores of other attractions are listed daily. The agricultural parts of the exposition have not been neglected and visitors will find buildings filled with blue-ribbon cattle, poultry, fruit and vegetables with a flower show, larger and more beautiful than ever, as the crowning glory.

That the program carries great appeal is reflected by the unexpectedly heavy sale of pre-fair, "economy" tickets, which will be available to the public until Labor day at less than one-half the regular admission.

and then the road resurfaced with about two inches of readymix.

Excavation and drainage work started this week on River road, the chapter 90 project which the town, county and state have been sponsoring for the past several years. Superintendent Charles T. Gilliard of the Board of Public Works states that this work will finish the Tewksbury end of the five-mile stretch. The state is desirous of going back again to the Lawrence end and widening the road out to twenty feet from Laurel lane to the line, but the local Board of Public Works it is understood prefers to let the River road lie for a while and instead do Elm street from the square to Washington avenue as a chapter 90 project.

One of the older natives of the region, who was long on spelling though short on mythology, was seen to return time after time to study the craft, and was also observed to shake his head.

Finally he could bear it no longer. He swung on a bystander, and in a disgusted voice said, "What a funny way to spell fish."

## Parish Outing on September 12

The annual parish outing of St. Augustine's church is to be held on Sunday, September 12, at the Franciscan monastery grounds in West Andover.

Many of those who helped make the outing so successful a year ago are again working on the committees. The pastor, Rev. Thomas B. Austin, O.S.A., has general charge of arrangements. Rev. John Corr, O.S.A., is in charge of refreshments, assisted by Mrs. Golden and Mr. Crotty. Rev. Henry B. Smith, O.S.A., is in charge of sports, with Frank McDonald and John Cussen assisting. M. A. Burke is in charge of transportation.

## Rep. Sirois in Congress Fight

Representative Edward Devlin Sirois of Lawrence, one of the Republican floor leaders of the Massachusetts House of Representatives, is a candidate for the Republican nomination to Congress from the Seventh Essex District to fill the vacancy caused by the death recently of Congressman William P. Connery. An organization meeting was held at the Legion hall here Wednesday.

Mr. Sirois states:

"As a Republican who was twice elected to the State Legislature from an overwhelmingly Democratic district, I believe I am the logical candidate to receive the Republican nomination to Congress from the seventh Essex Congressional district next month.

"The qualities that brought about my election and re-election by Democrats and Republicans alike, in my Representative District were experience, a sane and fair attitude towards all groups within the district, honesty and a desire to serve.

"These same qualities, together with the legislative experience I have accumulated, I believe, will appeal to the voters of the larger Congressional District, irrespective of party affiliations.

"Numerous political leaders and my friends in labor and veterans circles view the situation as I do and have promised their support."

Sirois is one of the acknowledged leaders of the Republican party and notwithstanding the fact that he is only serving in his third year and second term is a member of the cabinet of Speaker Horace T. Cahill, serving on the Rules Committee and is also a floor leader in the House and one of the ablest members of the lower branch. He is also ranking member on the Committee on Municipal finance having acted as Chairman during much of the last session. He is also serving the present recess Commission investigating Communism, Nazism and Facism and is a member of the Massachusetts U.S. Constitution Sesquicentennial Commission. He has also served on the Committee on State Administration. He has been a member of the Legislature since 1935, surprising all political dopesters when he won a seat hitherto held by Democrats, without serious opposition for many years. He is the only Republican member of the State Legislature from Lawrence.

As an overseas veteran and still active in the National Guard with over 21 years of active continuous service, he has always had the support of military and veterans groups who have backed him irrespective of party considerations. Of the progressive liberal type, he has also had the aid of organized labor, being endorsed at the last election by the Lawrence Central Labor Union and being commended for his legislature record by the Massachusetts State Federation of Labor.
